DETAILED ACTION

Claims 1-36 are presented for examination.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17 and 35, drawn to media metadata definition and control, classified in class 725, subclass 116.
- II. Claims 18-34, drawn to broadcast media metadata management, classified in class 379, subclass 88.26.
- III. Claim 36, drawn to generating metadata schema for legal jurisdiction, classified in class 707, 100.

The inventions I and II are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I (media data definition and control) has separate utility such as storing and arranging media metadata. Invention II (broadcast media metadata management) has separate utility such as managing metadata for

broadcasting processing. Invention III (generating metadata schema for legal jurisdiction) has separate utility such as creating metadata for legal right jurisdiction.

Because these inventions are distinct and search groups I, II and III are not required to be simultaneous, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is reminded that the reply to this restriction election to be completed must include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement be traversed (37 CFR 1.143).
